PROFESSIONAL EXPERIENCE

Entri.app, Kochi – Senior Frontend Engineer

November 2021 – PRESENT

- Implemented an advanced React-based framework that smoothly plug-in to both Android webviews and web apps, thereby increasing the experimentation process by 60%.
- Effortlessly integrated Moengage into the current codebase, unlocking valuable user behavior insights and optimizing the product by 15% through data-driven decision-making.
- Contributed thoroughly to the code review process, ensuring high code quality, identifying optimization opportunities, and thereby increasing the maintainability of the code by 10%.
- Mentored and empowered new team members, providing guidance on code quality standards and support thereby resulting in a 45% of ramp-up time and increased team efficiency.

Litmus7, Kochi – Associate Developer UI

August 2019 – November 2021

- Actively collaborated with an internal application team to expedite the development and deployment of a crub-based commodity pickup application, achieving a 50% acceleration in feature delivery speed.
- Revamping an established ecommerce site onto a modern technology platform in a streamlined 6-month timeline, ensuring 90% precision and excellence.
- Additionally, I gained invaluable experience as a React Native developer at Walmart's Bengaluru office campus for six months, contributing to

their mobile app development projects through an opportunity provided by Litmus7.

Rubyseven Studios, Kochi – *Senior Game Developer*

January 2016 – August 2019

- Partnered closely with the UX team to effectively transform designs into an exceptional gameplay experience, resulting in a significant 10% boost in active user engagement.
- Led a team in migrating the existing game from ActionScript to JavaScript, resulting in a remarkable 30% boost in user satisfaction within a few months.
- Collaborated closely with a diverse group of IT professionals to streamline the transportation of app updates within specified timelines, resulting in a 20% increase in user lead acquisition.

Codemob Technologies, Kochi – *Android Developer*

September 2015 – January 2016

- Created Android applications for local vendors, ensuring timely release and meeting client expectations with high success rate.
- Cooperated closely with the UX team to achieve a flawless user interface, resulting in 100% user interactivity and elevated app engagement.

EDUCATION

B-Tech – *Computer Science*

Adi Shankara Institute of Engineering and Technology, Kalady, Kochi

June 2012 – May 2015
